

Wisconsin Converting, Inc. of Green Bay

1-800-544-1935

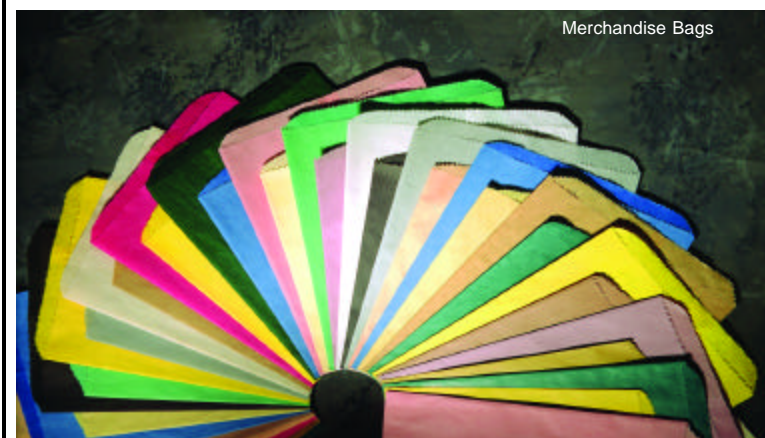

You provide the opportunity, we'll provide the solution!

Wisconsin Converting, Inc. (WCI) is located in Green Bay, Wisconsin. WCI manufactures and carries an extensive line of products including Eco-Shipper® utility mailers, Dura-Bag® reinforced mailers, Illuminations colored mailers, Merchandise bags, S.O.S. bags, Handled Shopping bags, Gourmet bags, and Sani-Liner® specialty refuse bags.

With years of experience, our friendly Customer Service Representatives (CSR's) respond quickly and efficiently to meet your needs. Prompt delivery of our superior quality carton packed products means extra savings passed on to you.

Our art and ink departments work closely with the CSR's to ensure our customers receive the highest standards in printing and product materials.

"The Distributor is OUR CUSTOMER!"

WISCONSIN CONVERTING, INC.

Merchandise Bag:

Merchandise Bags come in a wide variety of vibrant colors. Choose from 23 different colors available in traditional 30#, 35# and 40# basis weights, six standard stock sizes and an MG finish. All standard sizes and colors are stocked in-house. Custom sizes are also available. You can take advantage of WCI's three-color flexographic printing capabilities.

SOS Bag:

WCI offers a complete line of brilliantly colored, durable, square bottom 35# S.O.S. Bags. Choose from a magnificent array of 23 colors, available in standard basis weights, an MG finish and 6 sizes: 2#, 4#, 6#, 8#, 10#, 12#. Custom sizes are also available. WCI offers up to two-color, two-sided flexographic printing on SOS bags, and our bags fold to the seam side for easy post-printing.

Gourmet Bag:

These 30# MG finish kraft bags are lined with 25# glassine paper and are specially designed for candy, cake, nuts, confectionery and other food items. Unlike ordinary bags, WCI's Gourmet Bag provides a barrier against moisture, grease and stains. And, because moisture is kept in, your food items will retain their freshness longer. There is no odor transfer to spoil the flavor and freshness of your food products. The smooth exterior finish of these bags makes it an ideal surface for offset, hot stamping or letterpress printing. Gourmet Bags are stocked in 11 colors and three sizes: 1/4#, 1/2#, and 1#. WCI offers flexographic printing capabilities of up to two-color, two-sides.

Sani-Liner®:

WCI's Sani-Liner®, trash can liner, is made of 40# Wet Strength Kraft. Strength and durability remain in tack while being water resistant. The unbleached, natural kraft paper is porous allowing breathability in special applications in mental health care facilities, eliminating suffocation fatalities.

Dura-Bag®:

The Dura-Bag® consists of two sheets of WCI's golden tan paper; reinforced with fiberglass to ensure strength and security in protecting your products. The Dura-Bag® is ranked #1 among competitors in closure strength, puncture resistance and tear resistance. It also resists dirt and moisture, and is lightweight. It is available with a Plain, Peel & Seal or Resealable closure in 10 flat (80# basis weight) and 7 gusseted (80# basis weight) sizes. Up to two-color, two-sided flexographic printing available, as well as custom sizes.

Eco-Shipper® and Illuminations:

The Eco-Shipper®, manufactured from 50% post-consumer fiber, is a strong, attractive, environmentally friendly, and cost effective shipping package that is white (external), natural (internal). Independent testing has shown the Eco-Shipper® is rated #1 among non-padded mailers for resistance to tear, moisture, dirt and puncture. Eco-Shippers® are stocked in 9 standard flat (126# basis weight) and 6 standard gusseted (99# basis weight) sizes. The same top quality shipping packaging as the Eco-Shipper® is now available to match any PMS color of your choice. Available in low minimums, the Illuminations line increases the ability to brand products and increase visibility. Eco-Shipper® and Illuminations are available with Plain, Peel & Seal, or Resealable closures. Maximum two-color, two-sided flexographic printing capability. Custom sizes available.

Twisted Handle Shopping Bags:

Twisted Handle Shopping bags are produced from the same high-quality materials our customers have come to expect from WCI. Available in white (65# basis weight) and natural (60# and 70# basis weight) in several popular sizes, twisted handle shopping bags are ideal for all your customers needs. Ideal for post-printing, hot-stamping, or using just as they are.
