

# An elegant packaging solution

Renew shopping bags are an elegant packaging solution suitable for use at retail, for special events and tradeshows, or any time that you distribute products or information to your customers. These sturdy, upscale paper shopping bags are easily customized with your name or brand logo in a variety of hot stamp foil colors. Renew bags are also a sustainable packaging product. The bags are made from paper that is FSC certified and which also contains 30% post-consumer recycled content. These rugged bags are manufactured to withstand repeated reuse and the look and style of the bags will encourage it. Every time your customer reuses your bag, your brand will benefit from that additional exposure. Eventually, when your customer is finally finished using it the bag can be recycled to make a new paper product.

Renew bags are designed to exceed your expectations. They are durable, stylish, and environmentally-friendly; yet they are available on short notice at competitive prices. Renew bags give you the opportunity to cost-effectively bolster your brand with elevated packaging that until now was only available with long-run custom orders. Renew your brand today and enjoy the benefits of upscale sustainable packaging.
